What is Knight Bite?

Knight Bite is a cloud kitchen service that delivers delicious food at late nights.

Knight Bite currently operates in 6 cities and has 9 outlets across Bangalore, Hubli, Mangalore, Hyderabad, Manipal, Mysore. The service starts at 7PM and closes early morning at 4AM. (Time may vary according to location)

Biters(our foodie customers) from these 4 cities place order by using our app or by a phone call. Our smart delivery boys deliver these orders at their door steps within 35 minutes.

Cloud Kitchen

As technology and business goes evolving day by day,
There is a quick shift with what's happening in the food industry

And one of the biggest shifts is the emergence of cloud kitchens .

In a quick summary:

No restaurant, only a kitchen . It's ordered and delivered.

And ever since the pandemic, we have seen a boom in the cloud kitchens
even existing restaurants have been operating as cloud kitchens

KnightBite is one such concept which was highly successful in adapting to
the emerging market.

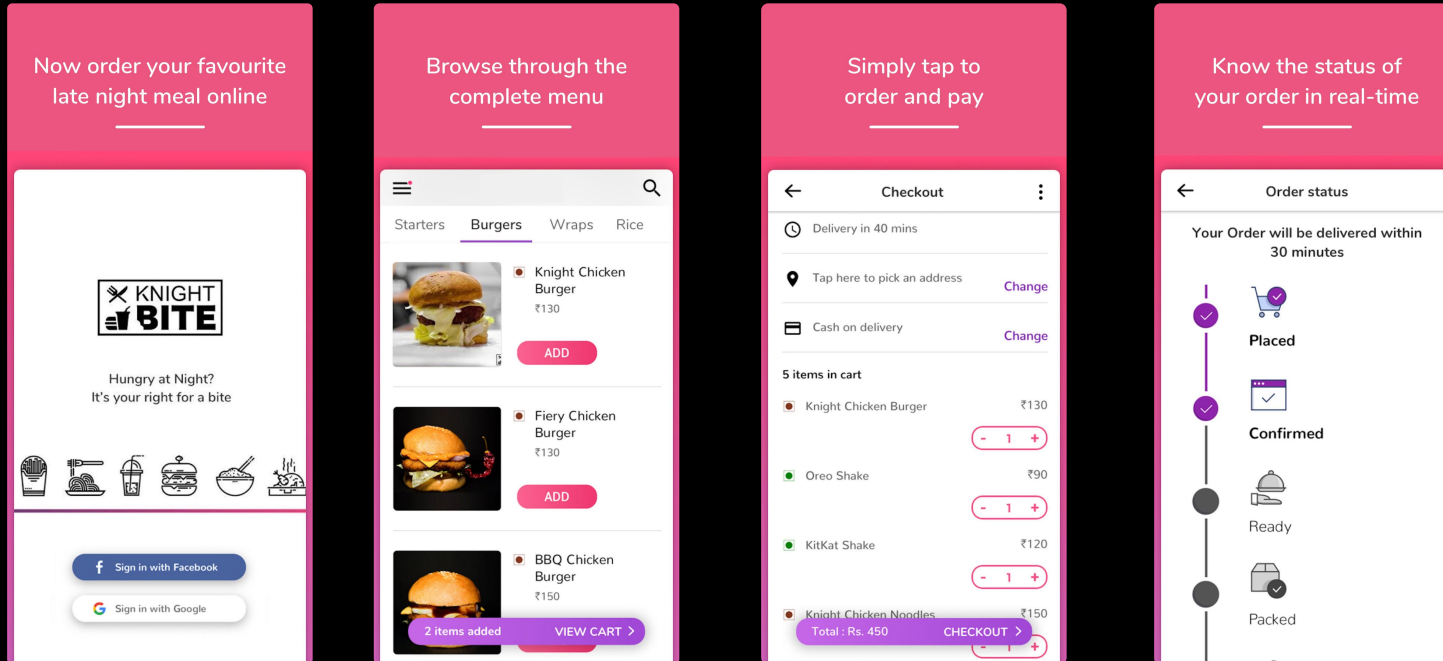

Mission and Vision

Our Mission is to deliver the best quality of food in the city with utmost customer service and satisfaction.

Our Vision is to be the most favourite Food chain Brand in the country.

Testimonials

“

I highly recommend this place I order both from mangalore and manipal and the taste is so consistent. My favourite from this restaurant is double patty zinger burger with oreo shake.

Our Happy Customers

Here's what The Biter Community has to say about Knight Bite!

Key Benefits of Knight Bite Franchise

- **Low investment**

Well , you don't need a prime roadside location to drag customers. You don't need to worry about interior decor or furniture . An office desk setup space and a kitchen space Any well hygienic location is good enough . We will provide the materials you require to set up the kitchen .

- **Low maintenance**

The hygiene, rent, staff and storage would be the only maintenance the franchise would have to focus on.

- **SkillSet**

Anyone with basic training can easily step into the shoes of the staff. No serious training is required to run the kitchen. The materials are sent .

- **Good profit margin**

Considering the establishment running cost being much lesser than a traditional restaurant, and the pricing of the food, you are in for a good profit margin . The model is working in two cities and can work in yours as well
